SYSTEM REQUIREMENTS

Required: Microsoft Windows® 10 64-bit, Windows 8* 64-bit, Windows 7 (64-bit), Vista (64-bit) - 2 GB RAM.

Recommended: Your experience with TurboCAD will be greatly enhanced with a newer generation, higher speed CPU, 4+ GB RAM, and larger display resolution and graphics support. The optional GPU-accelerated RedSDK render mode requires a supported graphic processing unit (either a chip on the board, or on a video card). The latest video drivers are typically required. Newer boards with more power and VRAM generally provide greater performance. RedSDK list of supported Video Cards and Drivers at <http://www.redway3d.com/pages/GPUList.php>
