

TurboCAD® LTE v9

Complete Drafting & Detailing with an AutoCAD LT®-like UI

TurboCAD LTE is a comprehensive 2D CAD package with an AutoCAD-like UI and command line. It includes all the features you look for in AutoCAD LT®, plus many of the more powerful features you want, at a fraction of the price.

Low Learning Curve – Keystrokes, UI, and command line all work like AutoCAD LT classic.

Enhanced Productivity – 64-bit with hyper-accelerated drawing engine and our improved, easy to use conceptual selector tool!

Better Drafting and Detailing – Architectural design features, an enhanced layer manager, & support for Xrefs.

KEY FEATURES

- ✓ **AutoCAD-Like User Interface** - No need to re-learn what you already know. AutoCAD LT-like UI lets you concentrate on your design.
- ✓ **Complete 2D CAD Functionality** - Complete set of 2D drafting and detailing tools for drawing, modifying, and dimensioning. When used with snaps and drawing aids you will be able to quickly draft and document your designs.
- ✓ **Enhanced Layer Manager** - Both modeless and multi-selection capable, use it to create layers, then sort by any criteria. You can also create layer sets..
- ✓ **Hyper-Accelerated Performance** - Increase zoom and pan performance. The powerful Redsdk v3 drawing engine takes advantage of GPU-based graphics cards for lightning fast wireframe displays.
- ✓ **Support for Xrefs** - All of the file formats that can be opened and imported (except bitmaps), may be used as an external reference (Xref).
- ✓ **Architectural Design** - TurboCAD LTE offers architectural walls (straight and curved; ends and intersections) that are self healing with automatic cleanup.
- ✓ **Supports Industry Standard File Formats** - Open and save most major CAD and graphic file formats including .DWG, .DXF, .SKP, .TCW and more..

USER REVIEWS

LTE is the Solution

"TurboCAD LTE was the breakthrough I was looking for; only better."
—Joseph B. 09/12/16

Good 2D CAD Program

"Overall, a pretty good package... Good value." —John B. 08/30/16

Awesome CAD Software

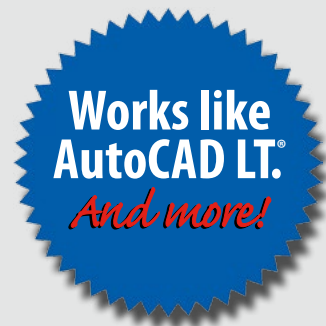

"Being a devoted AutoCAD® user for many years, I have finally switched to TurboCAD permanently. Ease of use and cost was the main factors. Highly recommend TurboCAD." —John E. 07/29/16

What I Was Looking For

"Having recently retired I found myself in need of a 2D drawing package... [TurboCAD LTE] is similar to AutoCAD LT® and the learning curve is short."
—Stan J. 07/24/16

An Alternative to Autodesk

"At last an alternative to the Autodesk® monster." —Patrick Anderson

SYSTEM REQUIREMENTS

Required: Microsoft Windows® 10 64-bit, Windows 8* 64-bit, Windows 7 (64-bit), Vista (64-bit) - 2 GB RAM.

Recommended: Your experience with TurboCAD will be greatly enhanced with a newer generation, higher speed CPU, 4+ GB RAM, and larger display resolution and graphics support. The optional GPU-accelerated RedSDK render mode requires a supported graphic processing unit (either a chip on the board, or on a video card). The latest video drivers are typically required. Newer boards with more power and VRAM generally provide greater performance. RedSDK list of supported Video Cards and Drivers at <http://www.redway3d.com/pages/GPUList.php>
