

TurboCAD® Mac Pro v10

Professional 2D/3D Drafting, Modeling, and Rendering!

TurboCAD Mac Pro v10 delivers unparalleled value and productivity in a professional 2D/3D CAD package. Fully integrated 2D drafting tools, 3D surface and ACIS® solid modeling tools, assembly tools, and advanced architectural tools are accompanied by powerful LightWorks photorealistic rendering, publishing tools, 3D printing features, and extensive file support.

Professional Control and Flexibility are yours with TurboCAD Mac Pro. Customizable toolbars, set-up wizard, and context sensitive help enhance usability, while the block manager and the ability to quickly organize layers and layer sets optimize drawing management. TurboCAD Mac Pro also offers a fully editable, hierarchal Part Tree.

Industry Specific Tools offer superior control and flexibility. Access specialized suites of professional design tools for easier 2D/3D Architectural Design, flexible Mechanical Design, and Woodworking.

Powerful Lighting & Rendering options allow users to visualize finished designs in photo-realistic 3D, while Sketch rendering options offer a hand-drawn look, appropriate for early states of design. Plus complete printing and publishing tools as well as extensive file support make it easy to share ideas.

KEY FEATURES

- ✓ **Professional 2D/3D Design Tools**, 64-Bit compatible, flexible gripper tool, over 38,000 2D/3D CAD symbols, layers and layer sets.
- ✓ **Productivity Features** including a video tutorials, drawing wizard, space mouse support, customizable toolbars, & context sensitive help.
- ✓ **2D/3D Architectural Design Tools** like auto-dimensioning walls, parametric architectural objects, materials, and pre-drawn floorplans.
- ✓ **Robust Mechanical Tools** with ACIS® solid modeling engine and tools, mesh and surface modeling, assembly tool, & more.
- ✓ **Woodworking Tools** to quickly create rabbet, dado, miter, dovetail, tongue and groove joints as well as a new pocket hole tool.
- ✓ **Powerful Part Tree** that is fully editable and hierarchal, works like a selective Undo/Redo tool for solids and surfaces.
- ✓ **Photorealistic Rendering & Visualization** with high-quality lighting, materials, and environments for professional presentation.
- ✓ **Publishing Tools** to save designs as single or multi-page PDFs, export to a desktop publishing format, or record a QuickTime video.
- ✓ **Outstanding File Compatibility** with AutoCAD®, Adobe®, and SketchUp® product formats along with many more for file sharing.
- ✓ **Suite of 3D Printing Tools** to check and prepare a part for 3D printing.

...and much more!

Dozens of New Features & Enhancements

PERFORMANCE – TurboCAD Mac Pro v10 uses multi-threading to speed operations including photorealistic rendering, file imports, and facet calculations. The ACIS® solid modeling engine has also been updated by two major releases offering numerous improvements.

USABILITY – New Selection Tools, New Copy Key Original Layer Option, New Draw View, and New Customizable Context Menu allow for more efficient workflow, while an updated BOM dialog and the expanded Gripper tool add flexibility.

3D MODELING – In addition to updates to the underlying solid modeling engine, TurboCAD Mac Pro v10 offers a New Repair Curves operation, New Magnet tool, and Improved Infinite Plane Objects (sizeable and transparent) for added flexibility.

VISUALIZATION – Now use TurboCAD Mac Pro v10 side by side with KeyShot to expand photorealistic rendering and presentation options. Plus new Rapid Render tools are now available for wood materials like pine, maple, and oak.

INTEROPERABILITY – Major improvements to TurboCAD Mac Pro v10 file filters including IGES, STEP, SAT, DWG, and STL. SketchUp® 2016 Import is now supported and SketchUp Export has been added along with New SAB Export and New 3D-PDF Export.

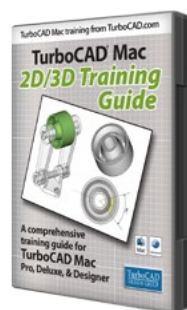

...and much more!

USER REVIEWS

Elegant Design

"TurboCAD for Mac is the most elegantly designed CAD program I've ever used. Its beauty is its simplicity. Congrats on a job well done."

–D.F. TurboCAD User

Terrific Value

"...a terrific value for professionals looking for a full-featured 2D and 3D drafting application for creating CAD drawings."

–Greg Miller Macworld.com

SYSTEM REQUIREMENTS

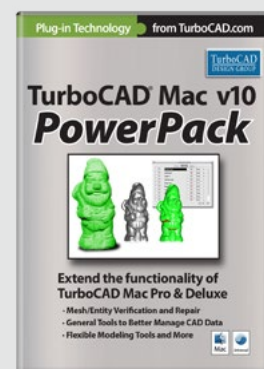

TurboCAD Mac Pro v10 System

Requirements: Macintosh® OS X 10.8 (Mountain Lion), 10.9 (Mavericks), 10.10 (Yosemite), 10.11 (El Capitan), and 10.12 (Sierra) Intel® Mac®, 8 GB of hard disk space, 4 GB RAM or greater, Mouse Pointing Device (wheel button recommended). Compatibility not guaranteed for later operating systems. TurboCAD Mac supports Apple's 64-bit architecture.

Extend the Power of TurboCAD Mac Pro with TurboCAD Mac PowerPack

This add-on module to TurboCAD Mac Pro extends the standard functionality with tools to verify and repair mesh, curves, surfaces, and solids. Additional tools provided include verify and repair profile.
