

TurboFloorPlan®

Home & Landscape Deluxe 2017 Mac

Easy Home & Landscape Design Solution

TurboFloorPlan Home & Landscape Deluxe 2017 Mac

is a complete home and landscape design solution. Get started right away using professional designed templates, training videos, and symbols. Simply drag and drop to design and plan every phase of your dream home, remodel, or landscaping project, including cost estimations.

Home Design – Plan all phases from floor plan, foundation, framing, and custom roof to HVAC, electrical, and plumbing. Easily design in both 2D and 3D!

Remodel – Visualize a new kitchen, bath, or room addition with custom cabinets, lighting, furniture and appliances. See designs in photorealistic 3D!

Decorate – Create “colorboards” of your favorite paint colors, flooring, windows treatments and more, and then swap in one click! Add pricing information to create budgeting snapshots of your project.

Landscape – Design decks, patios, fences, paths, lawns and gardens complete with custom topography and outdoor lighting.

KEY FEATURES

- ✓ **QuickStart™ Custom Home Designer** lets users simply select a room, click and drag it to a custom size, then drag more rooms and snap into position.
- ✓ **Professionally Designed Home Plan Templates** are completely editable, or scan and trace your own floor plan.
- ✓ **Design Up to 6 Floors!** Layout foundations, electrical, HVAC, and plumbing. Add walls, stairs, roofs, even name brand windows and doors.
- ✓ **Decorating Features** include thousands of drag-and-drop furniture and appliance symbols, lighting, flooring, paint colors, materials, window dressings, trim, and accessories.
- ✓ **Cabinet Designer™** offers a wide selection of materials, colors, handle and knobs, shelving, drawers, and appliances for the kitchen, bathrooms, and den!
- ✓ **Landscape** using auto edging and planting templates, a topography designer, thousands of trees, shrub, flower, and vegetation symbols. Even see how plants look over time.
- ✓ **Patio and Deck Layout Tools** including IntelliDeck™, furniture and patio groupings, outdoor lighting, and even tools for designing an outdoor kitchen.
- ✓ **Cost Estimator** automatically tallies and saves square footage and other area data in a spreadsheet format. Add pricing information to create a budgeting snapshot of your project.

...and much more!

USER REVIEWS

Adaptable Program

"An adaptable program with out-of-the-box simplicity for beginners and powerful design tools for advanced users. Plan terrains, landscapes, interior rooms, and utilities." – Jackie Craven, About.com

A Powerful Tool for a Small Price

"I am an Architect / Designer and I can't think or design just using 2D drawings! TurboFloorPlan provides immediate 3D visualization of a floor plan, or interior design ideas, or outdoor living." – Pat

Worth Every Penny

"As a total amateur when it comes to CAD and especial 3D I find it worth every penny, especially in combination with [the user forum]." – Robert Wennerberg

Low Cost - High Performance

"An excellent 3D architectural program that has a high value (i.e. low cost and high performance), is reasonably easy to use and produces good results with a low amount of effort. Works well with other programs (3D and other)." – Doug S

See Exactly How It Will Look

"I create models of proposed churches and Assembly Halls, producing photorealistic images to show the decor in several colors and styles." – Allan C

SYSTEM REQUIREMENTS

Macintosh® OS X 10.9 (Mavericks), 10.10 (Yosemite), 10.11 (El Capitan), or 10.12 (Sierra), Intel® Core™ Duo processor or faster, 256MB VRAM, 3.5 GB Hard Disk Space, 1GB RAM, DVD-ROM, 1024x768 millions of colors display resolution, keyboard, and mouse. Compatibility not guaranteed for later operating systems. Apple's 64 bit architecture supported.
