

TurboFloorPlan®

Home & Landscape Pro 2017 Mac

*Professional Home Design & Landscape
Design Solution for Mac OS X*

TurboFloorPlan Home & Landscape Pro 2017 Mac is a powerful, professional home and landscape design solution. No previous design experience is required! You simply drag and drop to design your dream home, remodel, or landscaping project, including cost estimations. Access professionally designed templates, training videos, thousands of drag & drop symbols, and much more.

Design Your Dream Home – Plan all phases from floor plan, foundation, framing, and custom roof to HVAC, electrical, and plumbing. Design in 2D and 3D with auto-dimensioning and automatic cost estimates. Access 3D navigation tools to walk-through, fly-around, and more.

Remodel or Redecorate – Visualize a new kitchen, bath, or room addition with custom cabinets, lighting, furniture and appliances. Create “colorboards” of your favorite paint colors, flooring, windows treatments & more. Swap in one click!

Create Outdoor Living Spaces – Add a deck or patio complete with outdoor furniture and lighting. Design fences, paths, lawns and gardens with custom topography. Even plan for how plants will grow and look over time!

KEY FEATURES

- ✓ **Professionally Designed Home Plan Templates** are completely editable, or scan and trace your own floor plan.
- ✓ **QuickStart™ Custom Home Designer** lets users simply select a room, click and drag it to a custom size, then drag more rooms and snap into position.
- ✓ **Design Up to 12 Floors!** Layout foundations, electrical, HVAC, and plumbing. Add walls, stairs, roofs, even name brand windows and doors.
- ✓ **Auto-Dimensions** change in real time as you make adjustments to rooms.
- ✓ **Decorate** with thousands of drag-and-drop furniture symbols, paint colors, materials, flooring, and more. Use the Cabinet Designer™ for the kitchen, bathrooms, and more!
- ✓ **Precision Lighting Planner™** lets users select interior and exterior lighting complete with simulations. View the effects of ambient light, shadows, falloff, radius, sunlight, and more.
- ✓ **Material Importer™** can take a photograph and save it as a material to add to your design.
- ✓ **Deck, Patio, and Landscaping Features** including furniture and lighting, a topography designer, planting templates, and thousands of plant symbols you can view as they grow.
- ✓ **Cost Estimator** automatically tallies area data. Add pricing information to create a budget..

...and much more!

USER REVIEWS

Easy to Use 2D/3D Program

"Well rounded, easy to use 2D / 3D program that is versatile and customizable. It provides 2D representation of anything from a basic home to a fantasy project."

– Jack Zimmer

Worth Every Penny

"As a total amateur when it comes to CAD and especial 3D I find it worth every penny, especially in combination with [the user forum]."

– Robert Wennerberg

Low Cost - High Performance

"An excellent 3D architectural program that has a high value (i.e. low cost and high performance), is reasonably easy to use and produces good results with a low amount of effort. Works well with other programs (3D and other)."

– Doug S

See Exactly How It Will Look

"I create models of proposed churches and Assembly Halls, producing photorealistic images to show the decor in several colors and styles."

– Allan C

A Powerful Tool for a Small Price

"I am an Architect / Designer and I can't think or design just using 2D drawings! TurboFloorPlan provides immediate 3D visualization of a floor plan, or interior design ideas, or outdoor living."

– Pat
